EDUCATION

RAJA BALWANT SINGH ENGINEERING TECHNICAL CAMPUS
(Affiliated to Dr. A.P.J Abdul Kalam Technical University, Lucknow)

Agra, UP

Bachelor of Technology in Computer Science and Engineering

2025

INTERNSHIPS AND CERTIFICATIONS

Vocational Trainee – Engineers India Limited, New Delhi

(1 July 2024 – 21 July 2024)

- Gained hands-on experience in Python Libraries like Pandas, NumPy, Scikit-learn, Seaborn.
- Developed a project for **predicting employee attrition** using Python and ML.
- Evaluated multiple machine learning algorithms like **Logistic Regression, Random Forest, Decision tree** to select the best fit.

Certification in TCS iON Career Edge - Young Professional

Certification in Deloitte Data Analytics Job Simulation

Certification in Python Programming and Machine Learning – YBI Foundation

SKILLS

Languages: Python, SQL, C++

Front-end: HTML, CSS, TailwindCSS

Back-end: Django, REST APIs

Database: PostgreSQL

Data Analysis & Visualization: Pandas, NumPy, Seaborn, Microsoft Excel, Power BI, Power Query

Version Control & Collaboration: Git, GitHub

Other: Data Analysis, Full Stack Web Development, Machine Learning

Soft Skills: Communication, Teamwork, Critical Thinking, Problem solving

PROJECTS

PORTFOLIO WEBSITE | Full Stack Web Development Project | [GitHub](#) | [Live Demo](#)

- Built and deployed a full-stack portfolio website to showcase personal projects and skills.
- Developed backend logic using Django and user-friendly frontend with HTML, CSS & Bootstrap.
- Deployed on PythonAnywhere, ensuring online accessibility and reliable hosting.

SALES PERFORMANCE DASHBOARD | Excel Project | [GitHub](#)

- Developed a dynamic sales dashboard in Excel using pivot tables, charts, conditional formatting, and VBA macros.
- Visualized top/bottom 5 performers, target achievement %, and state-wise sales data.
- Implemented interactive state-based filtering using checkboxes and custom macros to enhance user experience.

BOOKSTORE ANALYSIS | SQL Project | [GitHub](#)

- Cleaned and transformed raw data to ensure accuracy and consistency for analysis.
- Wrote advanced SQL queries to analyze customer behavior, sales trends and revenue performance.
- Identified top performing books and high value customer segments, supporting data driven decisions.

MOBILE SALES DASHBOARD | Power BI Project | [GitHub](#)

- Designed and developed an interactive sales dashboard using Power BI to analyze mobile phone sales data.
- Leveraged Power Query for data cleaning, transformation, and modeling.
- Created DAX measures to calculate KPIs such as quantity sold, transactions, and averages.
